

PURDYLUCEY IP GRADUATE TRAINING PROGRAMME

PurdyLucey is looking to recruit smart and enthusiastic graduates, with a passion for learning, to train as European Patent Attorneys, while working in a busy leading Irish Intellectual Property Firm in a fast paced and exciting role.

Purdy Lucey is one of Ireland's leading firms of Patent Attorneys offering a range of IP related professional services to clients in the areas of Life Science, High Tech, Engineering, Material Science, Medical Devices/Technology and Food Technology.

The chosen candidate will be expected to complete the necessary set of examinations to qualify as an Irish, UK and European Patent Attorney.

As part of their training and the preparation for these examinations, Trainees will be provided with in-house training by our highly experienced team of Attorneys. This is supplemented by external revision courses.

The ideal candidate must be degree qualified (or higher) in a biological science, chemistry, biotechnology, medical device, electrical or electronics engineering, computer systems engineering, information, and communications technology (ICT), software engineering or a related field. We welcome applications at graduate, masters, and PhD levels.

Please apply with your CV and covering letter to directors@purdylucey.com.
